

FOR THE HEALTH OF IT ...

Perform-A-Deck[®] DTA

ACOUSTICAL ROOF DECK CEILING

Project:
Madonna Pro Active Health Center
Lincoln, Nebraska

Architect:
Enwright Associates
Greenville, South Carolina

General Contractor:
Sampson Construction
Lincoln, Nebraska

The Madonna Pro Active Health Center in Lincoln Nebraska provides the precise environment for individuals recovering from medical procedures.

The Perform-A-Deck DTA with its **highly light reflective finish** and **smooth appearance** provides the interior of the building a fresh and invigorating feel. The comfortable surroundings are a direct result of the **sound reducing properties** of the product.

The Building Design Team created such a pleasant environment that patients are inspired to stay focused on their recovery and return for their workouts time after time. To maintain a healthy lifestyle, choose Perform-A-Deck DTA.
